

Matthias Bachfischer

HEAD OF DATA & AI ENGINEERING CHAPTER

Munich, Germany

✉ bachfischer.matthias@googlemail.com | 🏠 bachfischer.me | 📺 Bachfischer | 📄 Bachfischer

Summary

As Head of the Data & AI Engineering Chapter at E.ON, I lead the design and scaling of enterprise-grade Data & AI platforms that accelerate Europe's energy transition. I work with a team of top engineers to advance our Data & AI capabilities and raise the bar on engineering excellence across the E.ON group.

Work Experience

E.ON Digital Technology

Munich, Germany

HEAD OF DATA & AI ENGINEERING CHAPTER

Mar. 2026 - Present

- Lead the Data & AI Engineering Chapter of 30+ data engineers, data scientists, and AI engineers, with responsibility for hiring, people development, and technical excellence
- Define group-wide engineering standards that shape how engineers across E.ON design, build, and operate Data & AI solutions
- Modernize the group-wide engineering tooling landscape, introducing AI-assisted development practices to raise delivery performance
- Direct the design and scaling of enterprise-grade Data & AI platforms that serve business units across the E.ON group

E.ON Digital Technology

Munich, Germany

SENIOR AI SOLUTION ARCHITECT & PRINCIPAL SOLUTION ARCHITECT FOR DATA & AI

Sep. 2024 - Feb. 2026

- Led the build-out of E.ON's foundational AI/ML platform infrastructure and oversaw the design and delivery of end-to-end AI solutions into production
- Defined Enterprise Architecture standards for Data & AI and secured their approval through the Lead Architecture Group (LAG), E.ON's central technology governance body
- Drove standardization of Data & AI engineering across E.ON's regional businesses, aligning architecture, tooling, and ways of working

BCG Platinion

Munich, Germany

SENIOR IT ARCHITECT

Oct. 2023 - Jun. 2024

- Rejoined BCG Platinion to lead a global engineering team delivering three GenAI products for the procurement organization of an automotive OEM, cutting process cycle time by >50% (AWS, LangChain)
- Designed ML solutions and data pipelines for optimizing the energy usage of IoT-connected heating systems (AWS, Python)

IBM

Munich, Germany

SENIOR DATA SCIENTIST

Sep. 2022 - Sep. 2023

- Architected and implemented a semantic search engine for multilingual PII corpora at a federal agency (PyTorch, FastAPI)

BCG Platinion

Munich, Germany

SENIOR IT ARCHITECT (RETURNED FROM EDUCATIONAL LEAVE FOR M.SC. STUDIES)

Feb. 2022 - Aug. 2022

- Directed the development of a cloud data platform for energy-grid ML services at a Dutch TSO (Azure)
- Led sell-side due diligence process for the data & IT architecture of a leading European payments provider

BCG Platinion

Munich, Germany

VISITING ASSOCIATE & IT ARCHITECT

Jul. 2018 - Mar. 2020

- Designed and led the implementation of a real-time connected-car data platform ingesting high-throughput telematics streams (AWS)
- Built a DevOps platform enabling large-scale engineering teams to deploy containerized workloads (AWS, Kubernetes)

Education

The University of Melbourne

Melbourne, Australia

M.SC. IN DATA SCIENCE - GPA: 3.9/4.0

Mar. 2020 - Dec. 2021

- Awarded the Study Abroad Scholarship of the German Academic Exchange Service (DAAD)

Ostbayerische Technische Hochschule Regensburg

Regensburg, Germany

B.SC. IN BUSINESS INFORMATION TECHNOLOGY - GPA: 4.0/4.0

Oct. 2014 - Feb. 2018

- Dual study program with KRONES (Jul. 2013 - Feb. 2018): led a company-wide predictive maintenance initiative
- Scholar of the German Academic Scholarship Foundation (1% acceptance rate)
